

G70 Lashing Chain

Silverback understands the rigors of the transportation industry whether it's local, interstate or international freight forwarders. We're always here to help and provide the best equipment for the task at hand, at the right price.

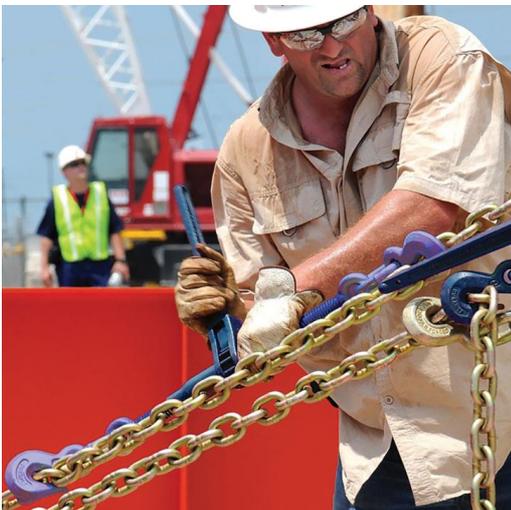

Silverback is known for its service and products - from cargo protection to spill control. Silverback is also well known in the industry for its tiedown system, G70 chains, ratchet dogs and are also the key supplier to the market for the Maxibinder.

Our G70 Lashing Chain comes in three sizes. We offer 8mm rated 3800kg, 10mm rated 6000kg and our 13mm rated 9000kg. All of these lashing chains are manufactured from high tensile Grade 70 steel, and electroplated with a gold finish to ensure resistance to oxidation and provide extended life. They are packaged in a tough plastic drum for easy moving and storage. All our Grade 70 chains have been manufactured to AS/NZS 4344:2001 and our product is stamped with AS 4344 every 500mm.

Silverback transport chain is used in heavy duty load restraining and lashing applications such as steel products, machinery, logs, bob cats, graders and other plant equipment, pipes, and pre-fab concrete panels to name a few.

We also offer G70 custom size chain kits from 6mm to 13mm in various lengths, as well as bulk chain lots which are ideal for freight forwarders, packing flat-racks and containers. Please contact your local Silverback office for pricing on custom products and additional Grab Hooks, Sling Hooks, Ratchet Dogs, Lever Dogs, Maxibinder, Webdogs and Chain knuckles.

Silverback has a large range of load restraints and other items in store, and are recognised leaders in this industry. For the latest safety and load restraint catalogues visit us at www.silverback.com.au.
