

P/N: 10333

Vehicle Tie Down System Deck Cleat

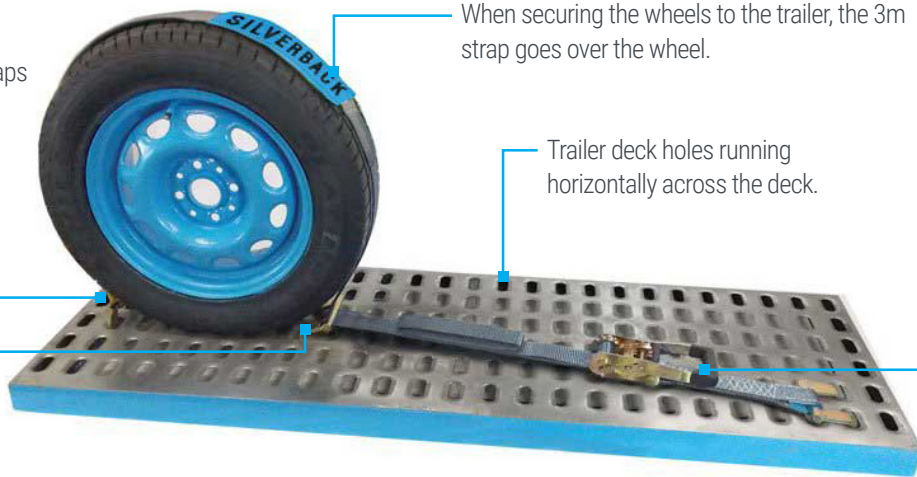

50mm x 3m LC 2500kg

INSTRUCTIONS:

The Deck Cleat on the straps goes in front of the tyre.

The floating Pack Hook goes behind the tyre, with a protective Silverback wear sleeve.

The ratchet is placed off to the side of the deck when tensioned to prevent damage to the ratchet as the car is rolled off the ramp.

HORIZONTAL SLOTS? Easily and safely secure your cargo with deck cleats.

This vehicle kit comprises of a Deck Cleat on the main strap with a floating Pack Hook along with 2 x wear sleeves, plus a compact buckle and tail strap assembly with a Deck Cleat designed for use under the vehicle chassis. For increased durability our strap loops are reinforced to reduce wear from hardware contact points.

As standard, our buckle has a contoured plastic handle to provide increased user comfort and grip. We offer a range of replacement Ratchet Tie Down Kit parts.

Our 3m, 2500kg Lashing Capacity vehicle restraint kits with various fittings are industry standard for restraining most types of vehicles and RV's.

Silverback offers custom ratchet tiedowns with your logo and colours.

All our straps are designed, manufactured and tested for compliance with AS/NZS 4380:2001 and are backed by the Silverback assurance of quality. Compliance Tags are securely attached to the webbing.
