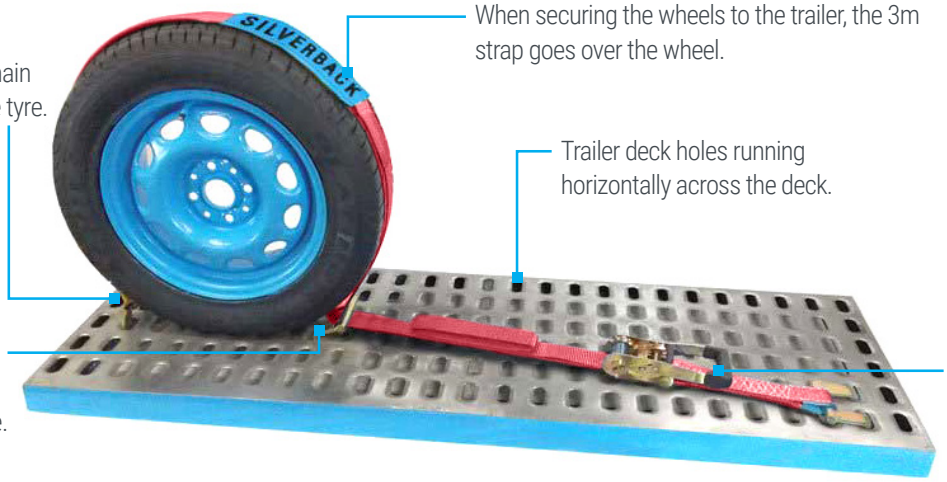
P/N: 10388SCE

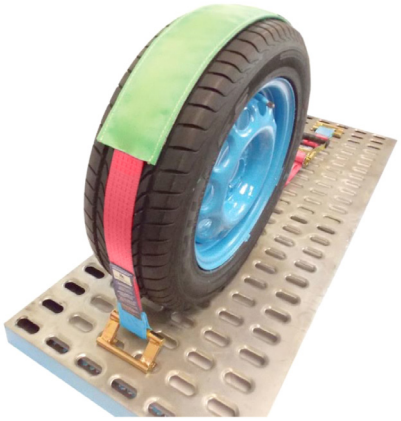
Vehicle Tie Down System Pack Hook

50mm x 3m LC 2500kg. Hi-visibility Strapping

SILVERBACK
SUPERIOR PROTECTION & SAFETY

INSTRUCTIONS:





HORIZONTAL SLOTS?

Easily and safely secure your cargo with Pack Hooks.

Pack Hook Vehicle Tie-Down Systems are a complete system ready to use. Each system comes with a compact ratchet buckle with moulded handle. The tail strap is fitted with a Deck Cleat for use in tight, restricted spaces. The main strap is fitted with 2 pack hooks, plus one 600mm long heavy duty protective wear sleeve, for extra grip on the tyre.

Like all our other quality ratchet straps and webbing products, they come with PU coating for increased UV protection and loops for hardware - including inner wear strips for extra strength and durability. This product is designed to work on slotted decking found on vehicle carrying transporters.

The Pack Hook Tie-Down System works on trailer slots running horizontally along the trailer deck. Please see the instructions above for how to use.

All our straps are designed, manufactured and tested for compliance with AS/NZS 4380:2001 and are backed by the Silverback assurance of quality. Compliance Tags are securely attached to the webbing.
