# PLASTIC STRIP RING SEAL

## Serial Number 220mm BLUE

Inexpensive way of providing tamper evidence of intrusion into sensitive spaces.

Security seals can help to detect theft or contamination, either accidental or deliberate. Typically, considered an inexpensive method of providing evidence of intrusion or tampering to sensitive cargo, assets or facilities.

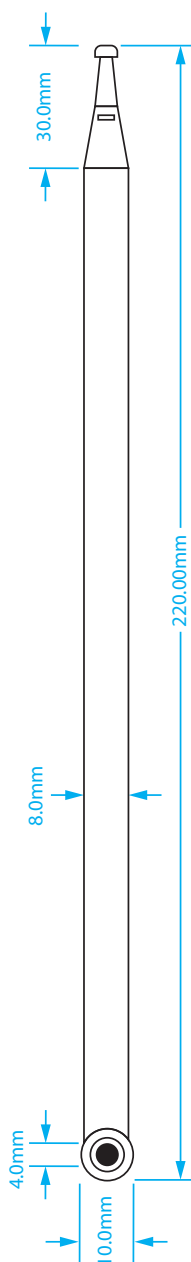

Fixlength Security Seal with a unique designed double-locking closing mechanism. That seal is the optimal solution for sealing of Freight Containers, truck and trailer doors. Well-established in the Transport, Retail, Railway and Logistic sectors.

These seals are designed for single use only.

A indicator pin at the end of the strap indicates a proper sealing once seal is closed. Clearly visible breakpoint outside the housing makes it easy to control the seal.

Consecutive numbering enables easy recording of the seal numbers and streamlines operations. Unique 6 digit Serial Number embossed on each item.
