Flexible Floor Bunding 90° Corner Join

300mm x 205mm x 150mm

SILVERBACK
SUPERIOR PROTECTION & SAFETY

Versatile & Sturdy Floor Bunding

Straigh Pieces sold seperately

Square Floor Bunding is designed for containment of accidental spills where non-aggressive liquids are being stored. It's constructed with a Han welded Heavy Duty PVC cover, sealing, an internal 100% memory foam insert inside. This provides easy access for trucks and forklifts whilst retaining its shape. By combining corner pieces with standard 5m or 'made to measure' lengths, this product is easy to customise to meet specific bunding requirements.

Installation is simple. The Bund is secured to the floor with an adhesive glue. For heavy-duty applications flat bar is recommended with dyna bolts drilled every 500mm. Please note that "aluminium flat bar is not included"

Perfect for busy workshops and forecourt areas where non-aggressive liquids are stored.

Before purchasing floor bunding ensure you check ground clearance of forklifts.

APPLICATION EXAMPLES:

- Warehouses
- Across doorways
- Access points
- Hazardous liquid storage areas
- Work shops
- Wash Bays

FEATURES:

- 900gsm HD PVC Fabric covering
- 100% Memory Foam springs straight back into place
- Minimal Impact to Forklifts
- Suits Heavy Duty Applications
- Easy to customise for specific site requirements
