

Spill Sweep Bio-Organic Absorbent

At Silverback, we take site safety very seriously. We know your greatest assets are your staff working on your site and the environment that we live in. With this in mind, we have a comprehensive range of site safety items and environment spill protections items to protect staff, equipment and the environment.

Spill Sweep is a highly absorbent Bio-Organic product made in Australia. This product is created with highly absorbent fibres which create a large surface area making clean up easy. With a rapid encapsulation rate of a wide range of fluids, Spill Sweep a totally biodegradable organic product with bio-active microbes which destroy oils and fuels encapsulated within the fibres.

Spill Sweep is an environmentally sound product that you could say is a *“cradle to the grave solution.”*

Spill Sweep comes with USEPA landfill standards 9095A & 1311 which means it is environmental & landfill disposal approved. There is no additional cost to dispose of it as it can go into general waste when used on hydrocarbons - classified by the N.S.W. EPA as immobilised solid waste suitable for Solid Waste Landfills (Class 2).

Spill Sweep Advantages are:

- effective on all hydrocarbons and general fluids
- absorbs oil & fuels out of water which is a great advantage on a wet day oil spill
- can be used indoors and out
- leaves no surface slick
- quick & easy to use
- safe to use – natural product (contains no crystalline silica)
- 10 kg weight bags – meets WHS lifting standards
- 100% Australian made & owned product

Silverback has a large range of site safety items plus a full range of Environment Spill Control items in store and are recognised leaders in this industry. For the latest safety catalogue visit us at www.silverback.com.au
