3M Disposable Half Mask Respirator

4279+ (A1B1E1K1P2)

SILVERBACK
SUPERIOR PROTECTION & SAFETY

Respiratory Safety You Can Trust.

As part of Silverback's commitment to safety we offer a range of respirator products. All the products in our respirator range comply with the Australian & New Zealand Safety Standards AS/NZS 1716:2012. We supply a vast range including surgical masks, dust masks and escape hoods and offer Class 1, Class 2, and Class 3 as well as P1, P2, and P3. For additional information about these ratings please see our safety catalogue pages 30-41.

Respirator protection is required by legislation in many workplace situations, and our range meets these various requirements with style, comfort and certified effectiveness.

The 3M Maintenance-Free Reusable Half Face Respirator 4000+ Series are a range of ready-to-use, maintenance-free half-face respirators, designed for effective and comfortable protection against many gases, vapours and combination particulate hazards.

3M 4279+ (A1B1E1K1P2) provides protection against organic vapours (good warning properties and b.pt. > 65°C), inorganic and acid gases and ammonia, up to 10 x WES or 1000 ppm, whichever is lower and 10 x WES for mechanically and thermally generated particulates.

KEY FEATURES:

- Disposable, maintenance-free half-face respirator.
- Twin inhalation valves and large, bonded carbon filters with permanently attached particulate filters.
- Easy to use as no need for assembly, maintenance or record keeping.
