

# Round Slings

Silverback's range of lifting products are designed to meet the ruggedness of the warehousing, transport and other general industries. Silverback's range of Round slings are a reliable and proven way of moving and lifting products.

Silverback's 1T Violet Round sling come in sizes from 500mm to 10m, and all our Round slings are proof tested, individually serial numbered and tagged and come with a test certificate. They are fabricated using 100% high tenacity polyester yarn and wound in a hank to form an endless sling. Durable with a specially woven, 100% polyester, non-load bearing tubular sleeve to give maximum wear protection to the yarn hank. Conforms to Australian Standard AS 4497.1.

**Sling selection** - before lifting a load, a risk assessment should be conducted to decide the type of sling that is most suitable to lift the load safely, for example a soft sling or chain sling. Sling selection needs to take into consideration: the nature of the load, including the potential for slings to be damaged by the load's edges or surface, whether the load is to be lifted in a confined area, and the potential for external obstructions to cause damage to the slings, and the environment the slings are to be used in (eg. heat, chemicals, dirt/dust) as well as the WLL of the slings.

**Regular inspections** - soft slings should be inspected prior to each use, and also undergo a thorough inspection at least every three months. Where slings are exposed to harsh operating or storage conditions, a more frequent inspection regime should be conducted. Inspections should be conducted by a competent person who is trained in the inspection of soft slings. For further information about inspections see: AS4497:2018 Round slings Synthetic fibre AS 1353.2-1997 Flat synthetic-webbing slings.

Silverback can offer the full range of lifting items from chains, slings, shackles, turnbuckles, load restraint, material handling items plus everything else you need for your warehouse, storage and shipping needs, and are recognised leaders in this industry. For a full range of items and latest catalogues visit us at [www.silverback.com.au](http://www.silverback.com.au).
