

P/Code: 90202

Dunnage Bag Air Gun

Compatible with Silverback PP and paper dunnage bags.

Heavy duty air gun to suit large valve on dunnage bags. Comes with airhose connection fitting already installed.

Special valve attachment automatically clips onto dunnage bag valve when pressed into position to form airtight connection for fast and efficient bag inflation.

To inflate simply squeeze the trigger or squeeze the trigger and press the small trigger lock button for continual air flow, depress the trigger to release the lock and stop airflow.

To remove the gun from dunnage bag valve simply pull back on the valve connection and pull the gun off the bag.

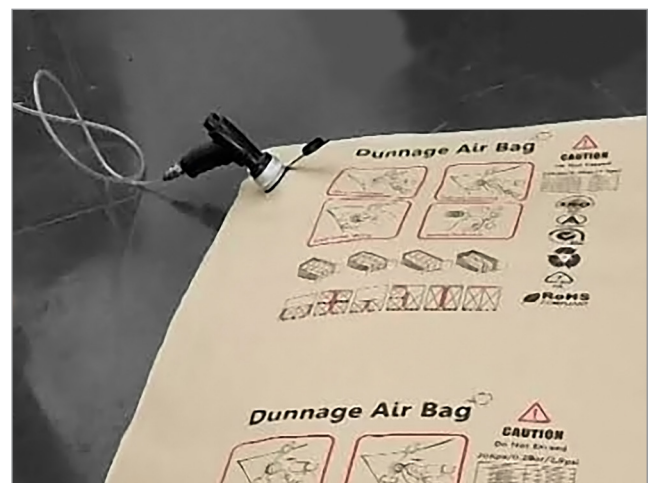

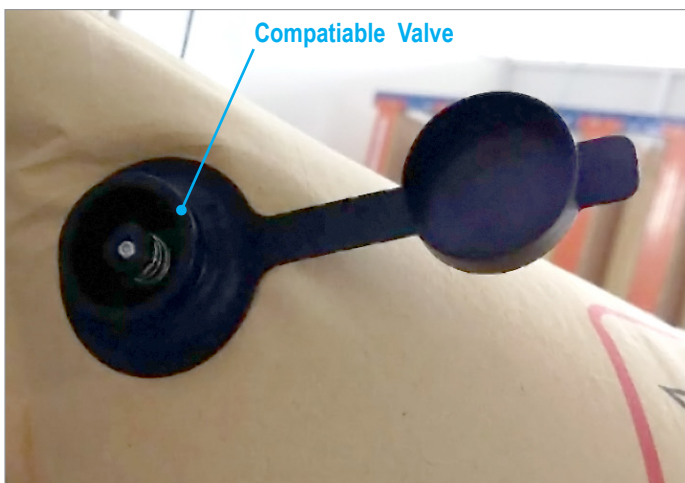

Technical Specifications:

- Plastic body with alum valve lock
- Comfortable pistol grip style design
- Hold on button for hands free continual inflation
- Release valve prevents bag over inflation - anti burst feature
- Supplied with male air fitting installed

Packaging:

- Sold as each
