Conquest Super Duty SD70E Industrial Scrubber

SILVERBACK
SUPERIOR PROTECTION & SAFETY

Reliable Power and Precision for Demanding Industrial Cleaning

Expertly engineered for the most challenging conditions, the Carbon model from our walk-behind scrubber range offers powerful scrubbing performance in even the toughest environments. This machine is built to last, featuring a powder-coated steel chassis that withstands the rigours of harsh settings.

The Carbon is celebrated for its reliability, which is enhanced by intuitive controls and minimal electrical components. It includes high-quality stainless steel parts such as the scrub head, hopper, and squeegee assembly, ensuring consistent cleaning effectiveness and durability. Ideal for medium-sized areas requiring regular thorough cleaning, the Carbon combines potent scrubbing capabilities with a compact and efficient design, making it a top choice for maintaining pristine conditions in demanding applications.
