

SILVERBACK
SUPERIOR PROTECTION & SAFETY

Silverback is a World Leader in solutions and environmental safety regarding water with its product WATER-GATE (modular and self-locking water dams) that contributes to the protection of communities from here and elsewhere (37 countries).

The Water-Gate **revolutionizes** the method cofferdams are built and instantly create dry and safe areas to allow working in just a few minutes in an ecological, fast, effective and reliable way.

- ✓ Create a temporary cofferdam;
- ✓ Block a river, divert a stream or recover water from aquatic areas will become for you an easy task.

The product AQUATIC WORKS

fits all environments

- 90 Degree Angles
- Curves
- Very Steep Walls
- Rounded Corners

- ✓ **Ideal product for repair work;**
- ✓ **Diverts the water on the work distance using a spillway.**

✓ The flexibility and durability of its components (Ultra-Strong PVC-Coated Polyester Fabric) allow the product to be reused many times and extend its life duration.

Installation in few minutes and doesn't disturb the environment!
